DANCECULT: JOURNAL OF ELECTRONIC DANCE MUSIC CULTURE is a peer-reviewed, open-access e-journal for the study of electronic dance music culture (EDMC). A platform for interdisciplinary scholarship on the shifting terrain of EDMCs worldwide, the Journal houses research exploring the sites, technologies, sounds and cultures of electronic music in historical and contemporary perspectives. Playing host to studies of emergent forms of electronic music production, performance, distribution, and reception, as a portal for cutting-edge research on the relation between bodies, technologies, and cyberspace, as a medium through which the cultural politics of dance is critically investigated, and as a venue for innovative multimedia projects, *Dancecult* is the journal for research on EDMC.
